## Circular 25 of 2015: Extension of Schemes Risk Measurement (SRM) submissions due date

The Council for Medical Schemes (CMS) would like to inform all medical schemes and administrators that the date for submission of 2014 SRM data has now been extended to 30 April 2015.

The template grids that are sent to schemes via the SR user list has not yet been sent out as inconsistencies with the users on the list were discovered, due to schemes not keeping the user list updated. Schemes are hereby urged to ensure that the people registered on the user list are still valid. The user admin should sign-on to the portal and make the necessary changes.

The template grids will be sent out on 9 April 2015 to allow schemes sufficient time to make the changes to their SR users.

Yours Sincerely,

Dr Anton de Villiers  
General Manager: Research & Monitoring  
Council for Medical Schemes
