Circular 37 of 2012: Entry and verification criteria for identifying beneficiaries with risk factors in medical schemes

The Council for Medical Schemes has published a discussion document on guidelines of identifying beneficiaries with risk factors in accordance with the entry and verification criteria, click the following link for the discussion document
<http://www.medicalschemes.com/files/Guidelines%20and%20Manuals/GIBRFAE.pdf>

Stakeholders and interested parties are invited to comment on this document.

Please make your submissions to Busi Khuzwayo in the Council's Research & Monitoring Unit, at b.khuzwayo@medicalschemes.com, before 30 October 2012.

Following the recommendations made by the Industry Technical Advisory Panel (ITAP), Council will publish a guideline which will set the standards for measuring the risk factors in medical schemes applicable from 1 January 2013.

The purpose of these criteria is to ensure that standardised techniques are applied across the industry.

Your input would be greatly appreciated.

Yours sincerely

Michael Willie
Acting Senior Manager & Senior Researcher
Research & Monitoring Unit
Council for Medical Schemes
