Circular 37 of 2014: Submission of aggregated ICD-10 compliance data

The updated specification with regards to the submission of aggregated ICD-10 data is in the process of being finalised. As the process is currently not completely finalised and the submission of data is not feasible, the ICD-10 Ministerial Task Team reviewed the submission dates.

Medical schemes and administrators are hereby informed that the August 2014 submission will not take place. The next date of submission will therefore be 13 February 2015.

The updated specification will be published shortly to allow sufficient time for medical schemes and their administrators to update their systems before the 2015 submission.

The formal ICD-10 Ministerial Task Team publication is available on the National Department of Health website here.
