### **Circular 40 of 2014: Second Draft Benefit Definition for Ischaemic Heart Disease**

As part of the Prescribed Minimum Benefits (PMBs) Definition Project the Council for Medical Schemes (CMS) has developed a draft definition for Ischaemic heart disease. The Ischaemic heart disease benefit definition was first published in 2012 and after review of the comments significant changes were made from the first draft. This second draft includes comments from all the stakeholders, and consists of the following documents:

- i. [Ischaemic Heart Disease \(ST-Elevation Myocardial Infarct\)](#)
- ii. [Ischaemic Heart Disease \(Unstable Angina/ Non ST-Elevation Myocardial Infarct\)](#)

Affected stakeholders are invited to discuss the second draft by submitting written comments to Ms Evelyn Tshehla ([e.thsehla@medicalschemes.com](mailto:e.thsehla@medicalschemes.com)) by 1 October 2014.
