Internet Service Provider Cut-Over

The Council for Medical Schemes (CMS) hereby wishes to Inform all our stakeholders that we will be performing an Internet Service Provider (ISP) cut over on Friday 31 August 2018.

During this cut over, services related to voice, our website, e-mail as well as specific web-based applications such as the financial returns, may be interrupted whilst propagation of addresses are being affected.

The ISP cut-over will commence after 15H00 as to minimize the impact on those stakeholders who are at present engaged in submitting quarterly return data to the CMS. It is expected that propagation of new IP addresses will be concluded by Close of Business, Saturday 1 September 2018.

All services should be fully restored at the onset of business on Monday 3 September 2018.

We wish to apologise in advance for any inconvenience which may be caused by this cut over and wish to assure all our stakeholders that we will endeavor to restore all services as soon as humanly possible.
