Circular 57 of 2014: 2014 Annual Return and Administrator Workshop

Circular 31 of 2014 in which suggestions and comments relating to the proposed 2014 Annual Statutory Return (AR) was requested refers, as well as Circular 42 of 2014 in which we informed the industry of a project to redesign and enhance the system used to collect healthcare utilisation data.

Due to the development of the new proposed system for the collection of utilisation data, no changes to the current financial data collection system (i.e. parts 4 – 10 of the AR) is envisaged for the 2014 annual financial year.

The Council for Medical Schemes (CMS) normally hosts an administrator/user workshop in March of each year to provide training related to the annual changes made to the AR. As no changes are envisaged for the 2014 year, CMS would appreciate an indication whether a need for the workshop still exists. In the event that users still require a training session, kindly also provide suggestions as to the specific parts/topics for which additional training is required. These suggestions can be submitted to Julindi Scheepers via e-mail at j.scheepers@medicalschemes.com.

Your assistance in this regard would be appreciated.
