Circular 5 of 2015: Real time monitoring (RTM) changes for 2015

The Council for Medical Schemes (CMS) will be making changes to the Real Time Monitoring (RTM) system from 2-6 February 2015 to make it more user friendly and also to separate the utilisation indicators from the financial data. As of 9 February 2015, schemes will need to change their coding to incorporate the changes for 2015. Schemes have until 20 February to incorporate the changes to their system and report any issues to CMS. Schemes should take note that the submission for January 2015 is due on 27 February 2015.

Schemes are referred to the Help File for 2015 for further details regarding the submission process:

<http://www.medicalschemes.com/files/Guidelines%20and%20Manuals/RTMthF2015.pdf>

Please note that the Help File is only applicable from January 2015 onwards.
