**NATIONAL REFERENCE PRICE LIST IN RESPECT OF PRIVATE HOSPITALS (PRACTICE NUMBERS "57" OR "58") AND UNATTACHED OPERATING THEATRE UNITS/DAY CLINICS (PRACTICE NUMBER "77") WITH EFFECT FROM 1 JANUARY 2006**

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

Maternity	
<p>1. The maternity fees are a fixed per diem fee and replace all other charges:</p> <p>INCLUDING:</p> <p>Charges such as multiple births (nursery fee for 2nd baby excluded);  After-hour deliveries (including caesareans);  Labour ward or other ward fees, nursery fees;  Incubators;  Phototherapy;  Theatre and equipment fees; and  Surgical items (see list under point 8).</p> <p>But EXCLUDE</p> <p>Sections 5.1 to 5.3;  Sections 5.7 to 5.8 (Gases); and</p> <p>1. The costs of special treatment of newly born infants, e.g. circumcision certified as necessary by the attending practitioner, which shall be dealt with in accordance with the National Reference Price List for private hospitals and the rules of the relevant scheme pertaining to such dependants.</p> <p>2. If an epidural anaesthetic is given for either a vaginal delivery or a caesarean section, an additional fee (item 011) may be charged. This comprises of an epidural pack, all consumables used, as well as nursing time.</p> <p>3. An uncomplicated stay in a nursery for routine observation is included in the maternity fee, as well as phototherapy and routine high care observation after delivery for the new born baby.</p> <p>4. A neonate requiring specialised treatment in a ward, high care or ICU shall be considered to be a patient in its own right and, for that reason, the National Reference Price List shall be applied to such neonate and an account may be rendered on a fee for service basis.</p> <p>In such cases, the fixed fee per day remains applicable until the mother is discharged, but the amount of item 015, per day must be deducted from the fixed fee (comprising the nursery fee component).</p> <p>5. If the mother is admitted into high care or ICU, the full account is rendered on a fee for service basis, as this is clearly not an uncomplicated delivery. The codes for the nursery fee (item 015) and the delivery room (item 016) must be used to cover these specific services.</p> <p>6. The first day fee includes the cost of admitting the mother, 'prepping' and 'staging' etc, admission into the delivery room, the delivery and post natal period up until midnight. This includes any cost incurred during the early stages of an uncomplicated delivery, even if prolonged labour occurs.</p> <p>The second day is calculated as starting from midnight following the birth of the neonate on the day of the delivery.</p> <p>If however, the mother needs admission for stabilisation or treatment of a medical condition such as diabetes, pre-eclampsia or urinary tract infection, such an admission falls outside the scope of the maternity fixed fee. An account will then be rendered on a fee for service basis, until such time that the baby is delivered. If delivery itself is uncomplicated, then the first day (fixed) fee will be chargeable on the date of delivery, and second and subsequent days until the mother is discharged.</p> <p>If however, the mother is admitted to ICU or high care the full account must be rendered on a fee for service basis. If the baby needs admission - see (4).</p> <p>7. Admission for suppression of premature labour is not an uncomplicated delivery, and an account must be rendered on a fee for service basis.</p> <p>8. The following list of surgicals (maternity basket) are included in the per diem fee.</p> <p>THEATRE SURGICALS FOR NORMAL VAGINAL DELIVERIES  THEATRE CHARGES</p>	04.00

Equipment fees for automated, stereotactic, digital imaged surgical breast biopsy (UNDER REVIEW)									04.00
Note: For the purpose of a 6 month trial cost analysis, the manufacturer of the ABBI equipment recommends that the total breast biopsy procedure, inclusive of all fees, disposables and professional charges should not exceed the current conventional open excisional procedures. The recommendation is to cap the amount at R12634.50 per procedure unless otherwise motivated for. Core needle and vacuum assisted core needle would therefore be capped at R 5053.80 and fine needle at R 3790.40. The disposables for the ABBI are included in the equipment fee.									05.03

APPENDIX B	04.00

The following principles are applicable:

1. At all times best clinical practice must be adhered too.
2. Items listed in the Recommended Guide to Reimbursement for Consumable and Disposable Items Charged by Private Hospitals and Same Day Surgery Facilities are described generically according to product classification and function. Trade names may be included, by means of example, for clarification purposes only. Photocopies of all documents pertaining to the patients account must be provided on request. Medical schemes shall have the right to inspect the original source documentation at the hospital/sameday surgical facilities concerned. The Recommended Guide to Reimbursement for Consumable and Disposable Items Charged by Sub-Acute Facilities, Private Hospitals and Sameday Surgery Facilities will be reviewed half-yearly.
3. The cost of consumable and disposable items used on a patient in a hospital must be recovered by means of a charge mechanism as follows:
  - ¢ Items included in the per minute theatre fee.
  - ¢ Items included in the per day ward or unit fee.
  - ¢ Items are charged to the patient's account where reimbursement is not granted by a medical scheme.
4. Any agreed difference on the basic interpretation of the Recommended Guide to Reimbursement for Consumable and Disposable Items Charged by Private Hospitals and Same Day Surgery Facilities list will be made in accordance with the approval of the duly appointed representatives of the individual contractor, medical aid, MCO and representatives of private hospitals. Such approval shall be ratified in writing and circulated to all parties concerned. Where the hospital uses an excessively priced product, a review process should be conducted, and appropriate price adjustment made.
5. Disposable items are single use only and must never be reused.
  - ¢ Single use items will be charged at 100%.
  - ¢ Hospitals will sign an ethical undertaking that single use items will only be used once. If a hospital does not conform it may be reported to the group head office. If an acceptable explanation is not supplied within 14 days, payment on that account may be withheld.
6. Limited life re-usable products are products intended for multiple use and endorsed as such by the manufacturers. Such products will be charged according to the "Fractional" charges as detailed and are under continual review. The item will be considered life re-usable (limited multiple use) if it can re-used less than 100 times (endorsed as such by the manufacturer).
7. Where a hospital uses an excessively priced product, a review process with the parties as listed under 3 above should be conducted, and appropriate price adjustment made.
8. TTO's will be issued and charged according to the rules of the scheme.
9. All prescribed items will be recoverable according to the rules of the scheme.

#### Key Indicators

The different key indicators in the Recommended Guide to Reimbursement for Consumable and Disposable Items charged by Private Hospitals and Same Day Surgery Facilities List are as follows:

All prescribed items dispensed in wards or theatre are fully recoverable according to scheme's rules.
