

Unattached Operating Theatre Units 2006

NATIONAL REFERENCE PRICE LIST IN RESPECT OF UNATTACHED OPERATING THEATRE UNITS AND DAY CLINICS WITH A PRACTICE NUMBER COMMENCING WITH '76' WITH EFFECT FROM 1 JANUARY 2006

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

GENERAL RULES

A	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.	04.00
C	All accounts submitted by unattached operating theatre units/day clinics shall comply with all of the requirements in terms of the Medical Schemes Act, Act No. 131 of 1999. Where possible, such accounts shall also reflect the practice code numbers and names of the surgeon, the anaesthetist and of any assistant surgeon who may have been present during the course of an operation.	04.00
D	All accounts shall be accompanied by a copy of the relevant theatre accounts specifying all details of items charged, as well as all the procedures performed. Photocopies of all other documents pertaining to the patients account must be provided on request. Medical schemes shall have the right to inspect the original source documents at the rehabilitation hospital concerned.	04.00
E	All accounts containing items which are subject to a discount in terms of the recommended benefit shall indicate such items individually and shall show separately the gross amount of the discount.	04.00
F	Accommodation fees includes the services listed below: A. The minimum services that are required are items 3, 5 and 6. B. If managed care organisations or medical schemes request any of the other services included in this list, no additional charge may be levied by the hospital. 1 Pre-authorisation (up to the date of admission) of: · length of stay · level of care · theatre procedures 2 Provision of ICD-10 and CPT-4 codes when requesting pre-authorisation 3 Notification of admission 4 Immediate notification of changes to: · length of stay · level of care · theatre procedures 5 Reporting of length of stay and level of care · In standard format for purposes of creating a minimum dataset of information to be used in defining an alternative reimbursement system. 6 Discharge ICD-10 and CPT-4 coding · In standard format for purposes of creating a minimum dataset of information to be used in defining an alternative reimbursement system. · Including coding of complications and co-morbidity. To be done as accurately as practically possible by the hospital. 7 Case management by means of standard documentation and liaison between scheme and hospital appointed case managers · Liaison means communication and sharing of information between case managers, but does not include active case management by the hospital.	04.00

APPENDIX B

05.03

PRINCIPLES

The following principles are applicable:

1.

At all times best clinical practice must be adhered too.

2.

Items listed in the Recommended Guide to Reimbursement for Consumable and Disposable Items Charged by Private Hospitals and Same Day Surgery Facilities are described generically according to product classification and function. Trade names may be included, by means of example, for clarification purposes only. Photocopies of all documents pertaining to the patients account must be provided on request. Medical schemes shall have the right to inspect the original source documentation at the hospital/sameday surgical facilities concerned. The Recommended Guide to Reimbursement for Consumable and Disposable Items Charged by Sub-Acute Facilities, Private Hospitals and Sameday Surgery Facilities will be reviewed half-yearly.

3.

The cost of consumable and disposable items used on a patient in a hospital must be recovered by means of a charge mechanism as follows:

¢

Items included in the per minute theatre fee.

¢

Items included in the per day ward or unit fee.

¢

Items are charged to the patient's account where reimbursement is not granted by a medical scheme.

4.

Any agreed difference on the basic interpretation of the Recommended Guide to Reimbursement for Consumable and Disposable Items Charged by Private Hospitals and Same Day Surgery Facilities list will be made in accordance with the approval of the duly appointed representatives of the individual contractor, medical aid, MCO and representatives of private hospitals. Such approval shall be ratified in writing and circulated to all parties concerned. Where the hospital uses an excessively priced product, a review process should be conducted, and appropriate price adjustment made.

5.

Disposable items are single use only and must never be reused.

¢

Single use items will be charged at 100%.

¢

Hospitals will sign an ethical undertaking that single use items will only be used once. If a hospital does not conform it may be reported to the group head office. If an acceptable explanation is not supplied within 14 days, payment on that account may be withheld.

6.

Limited life re-usable products are products intended for multiple use and endorsed as such by the manufacturers. Such products will be charged according to the "Fractional" charges as detailed and are under continual review. The item will be considered life re-usable (limited multiple use) if it can re re-used less than 100 times (endorsed as such by the manufacturer).

7.

Where a hospital uses an excessively priced product, a review process with the parties as listed under 3 above should be conducted, and appropriate price adjustment made.

8.

TTO's will be issued and charged according to the rules of the scheme.

9.

All prescribed items will be recoverable according to the rules of the scheme.

Key Indicators

The different key indicators in the Recommended Guide to Reimbursement for Consumable and Disposable Items charged by Private Hospitals and Same Day Surgery Facilities List are as follows:

All prescribed items dispensed in wards or theatre are fully recoverable according to scheme's rules.

Key	Description
