SPECIFICATIONS FOR THE SUBMISSION OF UTILISATION DATA IN ANNUAL STATUTORY RETURNS

PART 2.7 - NUMBER OF BENEFICIARIES WITH THE FOLLOWING CHRONIC CONDITIONS

Added Variables in 2006:

None

Specification:

The **prevalence** of persons with the listed chronic conditions is required.

Every beneficiary who has any of the listed chronic conditions in the financial year (January - December) must be counted.

For beneficiaries with multiple conditions - each condition must be counted separately.

REF entry and verification criteria **must not** be used for the Annual Statutory Return data submission as these two datasets are collected for fundamentally different purposes. DO NOT supply REF count data as this will be verified and subsequently rejected.

ICD-10 codes should be used to identify the prevalence of these conditions. (NAPPI and other codes should never be used). Valid ICD-10 codes to be used are shown in Table 1.

Validation Rules:

1. Number of beneficiaries with a chronic condition < total number of beneficiaries in a scheme as at 31st December OR Average number of beneficiaries as at 31st December.
2. Please note that blanks or missing numbers will not be accepted.

Table 1: ICD-10 codes for the identification of persons with chronic conditions

Disease	ICD-10 code
Addison's Disease	E27.1
Asthma	J45.0
	J45.1
	J45.8
